

New modules

CCIM / CIM UTI Consignment note CIM for combined transportation (2.58.00)

New module in language version:

Slovakian – German, French – German and Croatian – German

Module is executable from rolling menu.

New function in modules

RWIS / Railway Infrastructure (2.71.00)

Changes in module:

There was added Calculation of freightage in function "Shortest route".

Function is available for railways No. 54, 55, 56 and 81.

CN CD / Consignment note CD (2.57.00)

1) Added new function "Multiple edit".

User can do changes in selected items in selected documents saved in Archive with this function.

Process is following:

- User select document from Archive (this document will be as a model).
- From local menu of consignment note or by using buttons select new function "Multiple edit".
- Module show blank that contain two lists. In the left list are showed all items of consignment note and in the right list are showed all items of selected consignment note from Archive.
- User can choose items that want to edit in the left list and choose documents of which will be editing done in the right list.
- For every selected item in the left list a module gets content of an item from unloaded document (model) and fills up all selected items from Archive in the right list after click on "Apply" button.

For every font (fixed or optional) is possible to make change separately.

2) Change Print with blank – new bitmap according to Regulation KN1.

3) Enlargement box for filling phone number (item 10 and item 15).

CIM/CUV consignment note (2.57.30)

There was added function "Multiple edit" (the same change that was made for CN CD).

There was added function export/import of the documents in .txt format for documents: CN ZSR and CN SMGS.

Instruction for modules updating in the ERIC program

- Insert ERIC Desktop DVD of the version 05/2008 into DVD drive.
- Start the ERIC Desktop program (if you already run the program, you must quit it and start it again to release all modules from memory. Then you can follow next steps).
- Select the menu item Services / Modules update.
- In a dialogue box set path to directory „Modules“ on that DVD. This can be done by means of „Drive“ combo box, which contains a list of drivers that are connected to your PC.
- By pressing the „Select“ button, run the modules updating and follow the updating procedure instructions.
- In order to verify whether the update was done correctly you can compare the numbers of modules versions (in the „Help / About modules / About program“ menu item) with the version numbers in this bulletin.
- In case that you have received a new module into your license, you should do the standard update twice. Otherwise the new module will not work. (During the first update, the data in license will be changed and during the second update the corresponding module will be copied to your PC according to the mentioned license).

In case of any problems please contact Mrs. Jaroslava Tomkova on +420 587 439 239 or via e-mail jarka.tomkova@jerid.cz.
