

Dear business partners,

We are planning an important change in the ERIC program: From January 1, 2010 all updates of the program will only be possible over the Internet. It means that from this date no updates will be sent on DVDs anymore.

More detailed information and settings of the ERIC program concerning this change are available on your DVD in the file "ERIC_update_internet_en.pdf".

The second planned change is to replace the Consignment notes modules in the ERIC program with a separate application called "Documents+". The aim of this change is to make it more comfortable for the users to work with their documents. The current programming environment of ERIC does not allow us to head the development of these modules in the needed direction.

The current Consignment notes modules will be preserved in the ERIC program as they are. From January 1, 2010, however, no development will be carried out and no updates will be issued in connection with these modules.

For current users of the Consignments notes modules in the ERIC program we will be offering special conditions for the transition to the new application "Dokuments+".

More detailed information about the new product "Doklady+" is available on our official web site www.jerid.eu.

From Contents

- New modules
 - HK distance tables (2.59.00)
 - DIUM HK (2.63.00)
 - HK station list (2.59.00)
 - CD station list SR70 (2.59.03)
- Modules modification
 - OGT (2.67.00)
 - OPSNG (2.69.00)
 - DB distance tables (2.60.08)
 - ZS distance tables (2.58.00)
 - International distance tables DIUM (2.63.01)
 - DB station list (2.60.07)
 - PKP station list (2.63.10)
 - OBB station list (2.59.06)
 - ZS station list (2.59.00)
 - RID / Dangerous goods list (2.64.00)
 - RWIS (2.79.15)
 - RailMap (2.67.10)
- Installation instructions

Instruction for modules updating in the ERIC program

- Insert ERIC Desktop DVD of the version 10/2009 into DVD drive.
- Start the ERIC Desktop program (if you already run the program, you must quit it and start it again to release all modules from memory. Then you can follow next steps).
- Select the menu item Services / Modules update.
- In a dialogue box set path to directory „Modules“ on that DVD. This can be done by means of „Drive“ combo box, which contains a list of drivers that are connected to your PC.
- By pressing the „Select“ button, run the modules updating and follow the updating procedure instructions.
- In order to verify whether the update was done correctly you can compare the numbers of modules versions (in the „Help / About modules / About program“ menu item) with the version numbers in this bulletin.

In case that you have received a new module into your license, you should do the standard update twice. Otherwise the new module will not work. (During the first update, the data in license will be changed and during the second update the corresponding module will be copied to your PC according to the mentioned license).
